LIGHTWEIGHT QUEEN
(LWQ)

2-3/4" bed, 2-3/4" face, 7-5/8" length

The Queen Size provides the same face as Engineered Modular with a cost-effective reduced bed depth of 3".

LIGHTWEIGHT MODULAR
(LWM)

3-1/2" bed, 2-1/4" face, 7-5/8" length

Modular size is the most common in the industry. When laid with 3/8" mortar joints, it forms an 8" modular dimension.

LIGHTWEIGHT ENGINEERED
MODULAR (LWE)

3-1/2" bed, 2-3/4" face, 7-5/8" length

Engineered Modular has the same bed size as Modular, with an increased face height. This size is often referred to as an "oversized" brick.

Photo samples are intended to represent general color range and texture. Precise color fidelity is difficult to obtain in print. Brick selection should be made from product samples.
