Paver Bond Patterns

A wide variety of bond patterns are possible when using pavers. Those shown below are only a small sample of possible configurations. To view more, please visit our website at GeneralShale.com or download our iPhone app. For technical information about bond patterns, please contact a General Shale sales representative.

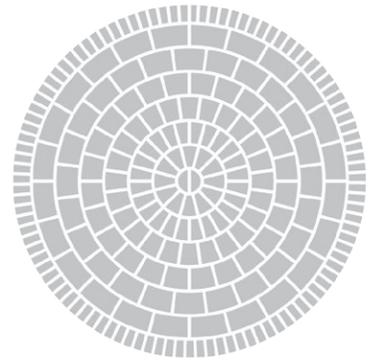

GEOMETRIC

Great for a more modern garden where angular layouts are prevalent

IRREGULAR

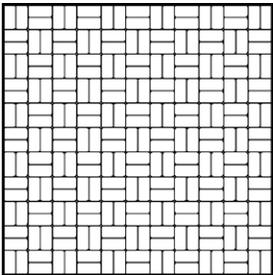

Beautiful in landscapes that are inspired by European-style "natural growth" gardens

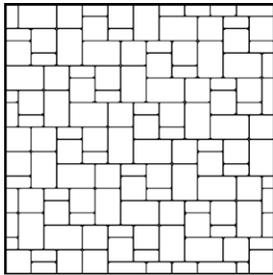

CURVED / CIRCULAR

Slightly more complex, but perfect around an elegant fireplace or family fire pit.
