

Serenity 150 Fireplace

- Greater Visual Appeal
- DIY Friendly Installation
- Value Added Feature

NOTE: This product is designed for outdoor use only. This unit is not designed to be used on wood decks or under roof enclosures. Locate unit a reasonable distance from any combustible materials.

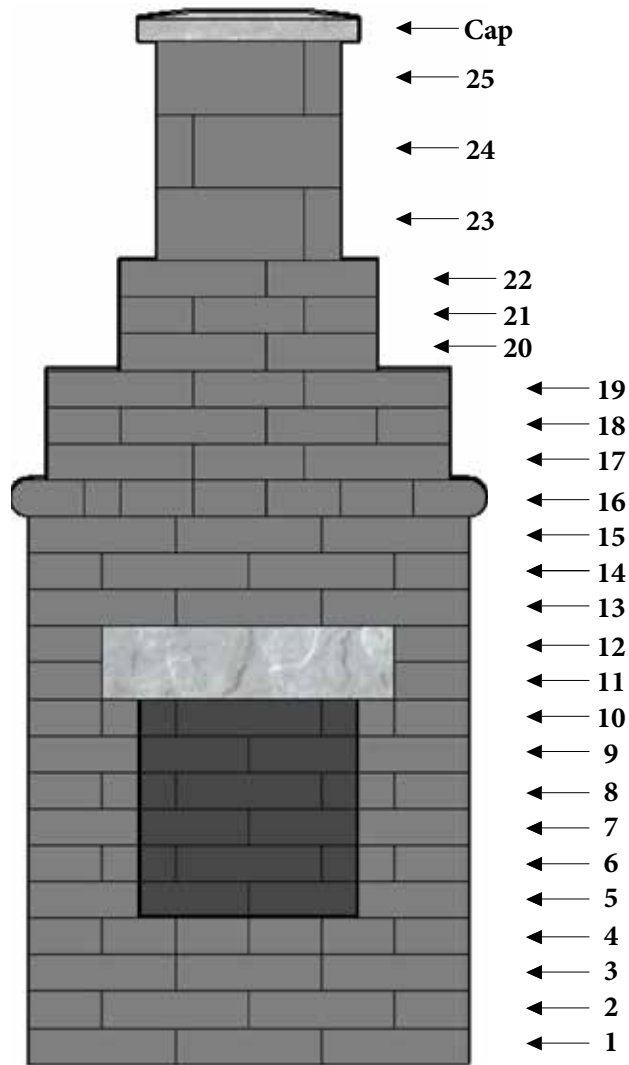

THE MORE 'SERENITY' THE BETTER.

When you have intermediate building knowledge to put to use and a limited area to fill within your outdoor space, the Serenity 150 Fireplace makes for an enjoyable do-it-yourself project and an elegant addition to your home. The Serenity 150's added height provides an extra touch of visual flair for greater appeal.
