Product Specifications

Item No: **SNL-400**

Dimensions: **12"W x 10.5"L x .5" D**

Weight (approx): **5 oz.**

Intended for use with modular thin brick measuring 2.25"W x 7.625"L x .5" D

* Based on live product testing

Rapid-Clad is designed to make installing General Shale Thin Brick even easier than before. Simply load the modular size thin brick into the trays face down between the self-securing clips. Next, apply the individual Rapid-Clad trays into the adhering material on the wall. The system is designed so that individual trays interlock with one another. Leave the Rapid-Clad trays secured to the wall until adhering material has dried/set-up before removing and reusing. See our accompanying installation guide for full instructions.
