

Sepia Veined

Elevate your indoor spaces with Adair® Tile

Natural Adair® Limestone is beauty unparalleled and often used for indoor flooring and stair treads. The inherent warmth and strength of Adair® Limestone conveys elegance, strength and sophistication in formal and casual settings.

Consider this:

As a natural stone, Adair tile has many benefits when compared to manufactured and imported floor coverings.

Adair® tile:

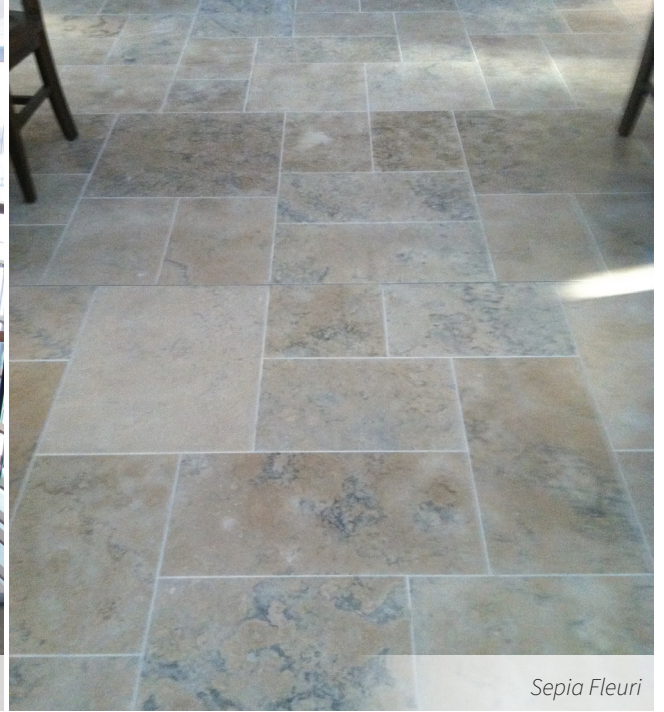

- has a very low carbon footprint,
- is a locally sourced natural stone with lower transportation related CO₂ emissions,
- has no VOCs,
- has a much longer service life than other flooring options.
