Achieving the warmth, comfort and rich aesthetics of masonry has never been easier.

We all know that brick is traditionally an exterior-use product that brings with it beautiful dimension, but at a cost. The perception is that brick is heavy and cumbersome. But Authentic Brick by Meridian™ Brick allows you to enhance any project – like the style-packed workspace featured here – without any of the downside. By offering more color, texture and style options, you can easily reap the benefits of genuine clay brick design wherever your imagination takes you.

Cottonwood

You've never seen or worked with a brick quite like this before. Authentic Brick by Meridian™ Brick is the exciting new way to transform your home or business in ways you never thought possible.

Get the skinny.
