

Serenity 100 Fireplace

- Compact Size
- DIY Friendly Installation
- Value Added Feature

NOTE: This product is designed for outdoor use only. This unit is not designed to be used on wood decks or under roof enclosures. Locate unit a reasonable distance from any combustible materials.

A LITTLE 'SERENITY' GOES A LONG WAY.

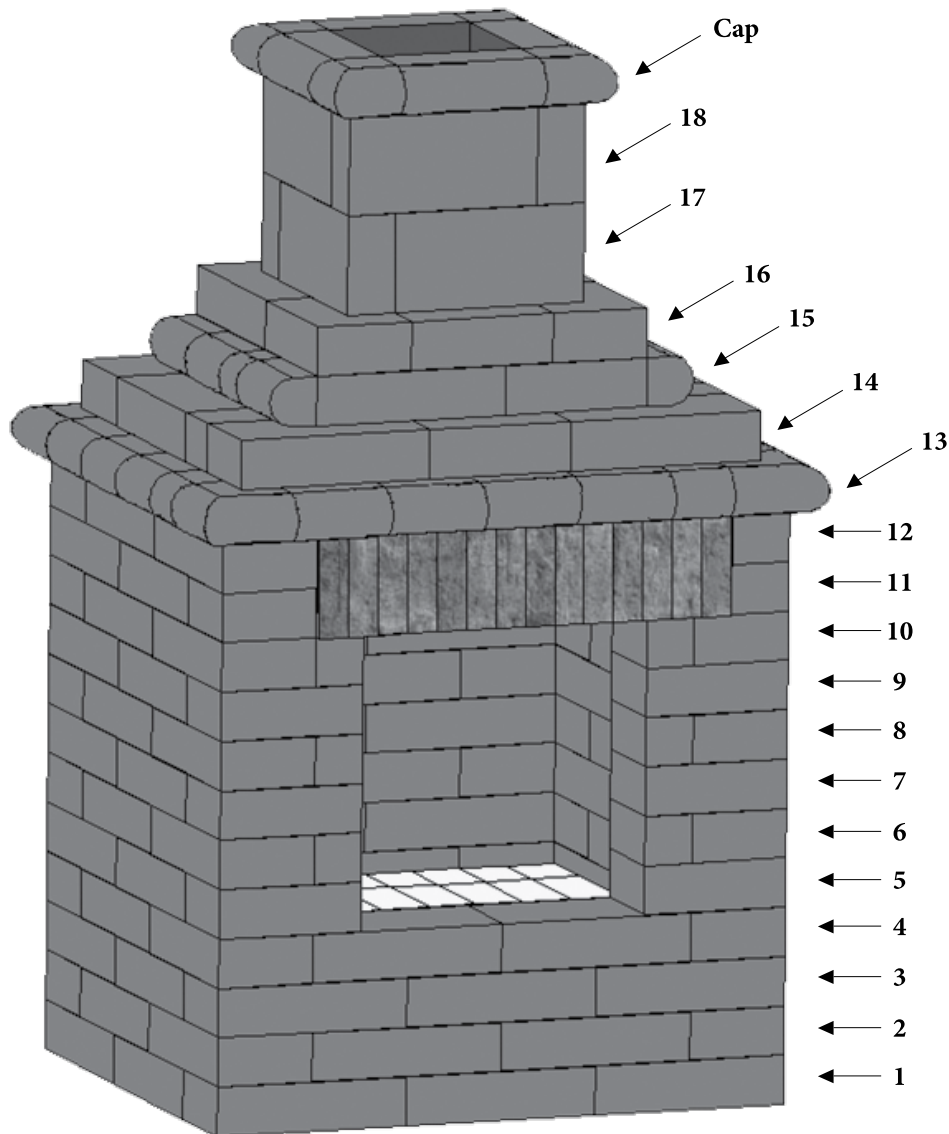

If your outdoor living space is limited, or if you aren't quite the master landscaper, the Serenity 100 Fireplace is an excellent **do-it-yourself outdoor fireplace option**.

With all the beauty and elegance of the larger fireplaces, the Serenity 100 is great for minimal spaces and is easier to install than our larger fireplaces.
